Abstract: a unifying construct integrating mathematics, computation, and intelligence. We define G.O.D as  $[\Omega+1]$  raised to  $\text{TREE}(3)$ .

Mathematical Core:  $\text{TREE}(3)$  is the largest known finite number from proof theory;  $\Omega+1$  is the successor to the first infinite ordinal.

Quantum & Computational: quantum systems push limits but cannot approach  $\text{TREE}(3)$ .

Harmonic Intelligence:  $\Omega$  = potential field;  $+1$  = closure;  $\text{TREE}(3)$  = maximal finite scaling; together unify subjective and objective.

Lineage: Varughese  $\leftrightarrow$  Malayalam frames sovereign authorship and lineage.
